

AMENDMENTS TO THE SPECIFICATION

Amend the paragraph bridging pages 17 and 18 as follows:

A

In an advantageous embodiment of the invention, if a physical downlink shared channel (PDSCH) is allocated in the radio link set-up procedure, the processing cost associated with the PDSCH, which is equal to the DL RL cost, is debited from the capacity credit, in addition to the radio link processing cost. Similarly, this cost is ~~debited from~~ credited to the capacity credit if a PDSCH is deleted and the difference between the new cost and the old cost is debited from the capacity credit if a PDSCH is reconfigured (or credited to the capacity credit if the difference is negative).
